How To Integrate API/Iframe

We have 2 options for Content Distribution

iFrame

API

Example of Iframe Code

Use the following iFrame code to show the article on any website

```
<iframe style="border: currentColor; height: 4440px; " src=" https://new.centsai.com/smarter-money/financial-literacy/financial-literacy-quizzes/do-you-understand-the-basics-2/?co_id=3957&lv=1 " width="100%"></iframe>
```

Example of Iframe Code for Branding

Use the following iFrame code to show the branding articles on any website

```
<iframe style="border: currentColor; height: 4440px;" src=" https://new.centsai.com/covid-19/?co_id=4007&lv=2" width="100%"></iframe>
```

Quiz: How Much Do You Really Know About Your Homeowners Policy?

You probably heard words like "rider" and "deductible" when you bought your home, but do you know what they really mean for you and your property? Find out by testing your homeowner smarts.

Question 1 / 5

1. Which of the following probably wouldn't be covered under your regular homeowners policy?

API

An API platform that helps customers to use the content *as is* or *personalize* based on their content strategy.

An Application based on the APIs that will help customers (B2B or B2C) to *search, select, integrate* and *monitor* the content.

- Customers will be able to personalize existing content or, add new content from their own or third party
- Partners will be able to integrate the content into their web applications or Apps

Customers and partners are able to review the sentiment analysis of the content to invest in right content, customer segments and increase the customer engagement.

API Method : GET

Developer is required to implement API solution on website.
Use GET requests to retrieve blog/Video and Podcast data.

Sr. No.	Header Parameter	Required	Values	Comments
1	Username	Yes	CentSai will provide	
2	Password	Yes	CentSai will provide	
3	Origin	Yes	Client Website URL	To make our API secure we added this parameter in API.
