

INTERESTED IN TRYING OUT BEEKEEPING AS A HOBBY?

Here are five things to do:

- #1 Save up at least \$400 to purchase all of the start-up equipment and bees.
- #2 Before you get started, read everything you can about beekeeping and seek out an experienced mentor.
- #3 Be prepared to learn from your mistakes; it is not as easy as it looks.
- #4 Be prepared to get stung. Katie once was stung over 60 times by an angry swarm - through her suit!
- #5 Keep in mind: beekeeping is very addictive!
